Advertise with us

About us

Game Lounge was founded in 2011 with a vision to transform affiliate marketing for the iGaming sector in the Nordics and beyond.

The company rapidly established itself as an industry leader in the field of SEO, and its affiliate sites get the vast majority of traffic through organic searches. Amongst its assets, Game Lounge owns a portfolio of affiliate sites in Finland, Sweden, Norway, the UK and other European countries. This includes its flagship Swedish affiliate site, SveaCasino.se

Search Engine Optimization

Game Lounge invests in SEO specialists who use their strong knowledge and expertise in the field to push the company's growth through organic traffic. The SEO team works confidently as the backbone to all professional content curated at Game Lounge.

Casino Marketing

Game Lounge Ltd is backed by a team of marketing experts specialising in the online casino industry. The team promotes a number of leading casino brands and products through well-established affiliate sites. Game Lounge currently operates across thirteen markets, including the US, Nordics, Germany, UK, and Japan. You can see some of them below:

slot tracker

What is Slot Tracker?

Slot Tracker is an innovative tool used to track spending and winnings from online slot machines. This unique platform automatically tracks users' slot data, compares their statistics, and then monitors their spending. These accurate features help to enhance users' online slots experience by helping them play smarter

How does it work?

The way Slot Tracker works is that the user downloads our extension and install it on their browser, enables it, and once an online slot is launched, the extension starts tracking automatically. The user will be able to check his statistics either on the extension or in our console if they would like a more detailed overview.

Sports Betting

We have focused on developing a product that puts all the attention to the user needs. Betting.com was devised with the bettor in mind. Everything we do, we do it to make their life easier. We believe that the sports betting space needs to be more fair, technology-driven and transparent. This is why we have developed software that combines all betting activities in one place.

Betting.com features coverage ranges from a fast odds comparison, betting tips, AI predictions, bookmaker bonuses to automated bet tracker, sports content and other interactive features. The best part is that all of the features are integrated with each other, allowing you to save a tone of time. You can even place bets on various bookmakers straight from the betting.com website.

What makes us different than our competitors? We allow the user to have full control over his finance and betting activities while enjoying the same level of entertainment.

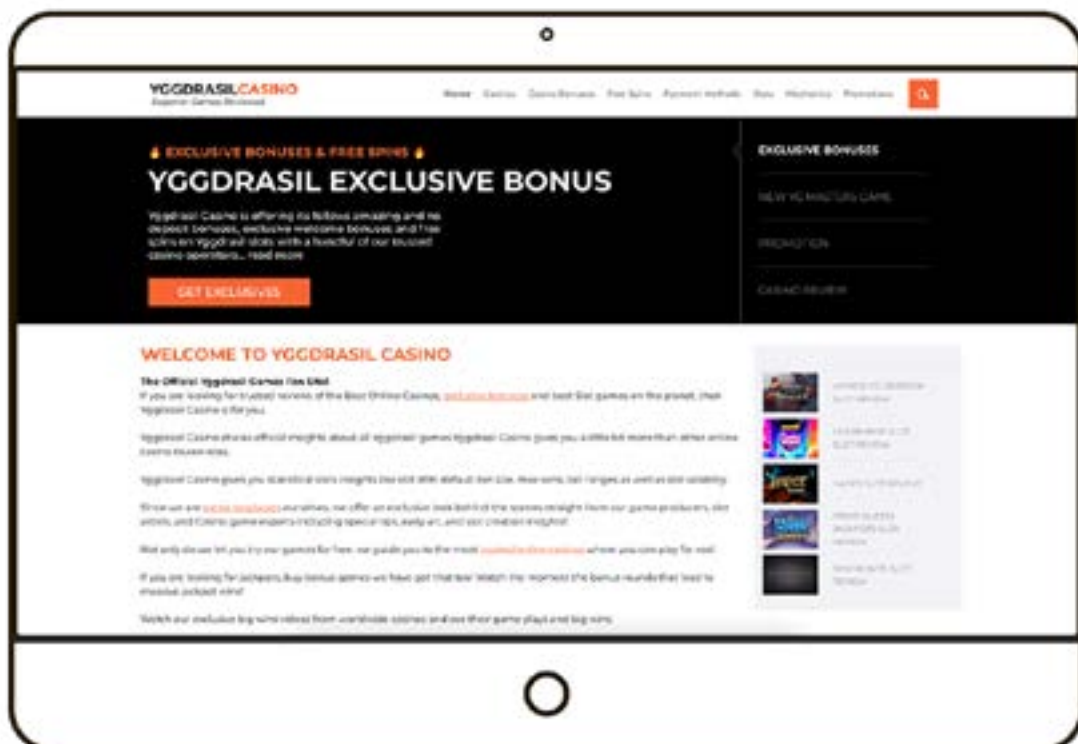

YGGDRASIL CASINO

SUPERIOR GAMES REVIEWED

YGGDRASIL CASINO

Game Lounge manages Yggdrasil's commercial affiliate activities. By signing the strategic affiliate partnership, Yggdrasil gaming content will broaden its reach. It will be across the industry and gain additional ground regulated gambling markets.

Other options of exposure

Top Widgets

Get noticed first! Top widgets give you a compact, effective way to achieve maximum exposure and traffic. Only four brands can be featured in a top widget position

Pop-up

Enjoy immediate attention on our pages with the highest traffic and conversions. Select a pop-up ad to grab that first impression.

Promotional articles

Want to share your latest news, update players on your offers, and generate some excitement? A promotion article featured on Game Lounge's websites provides you with an immediate audience.

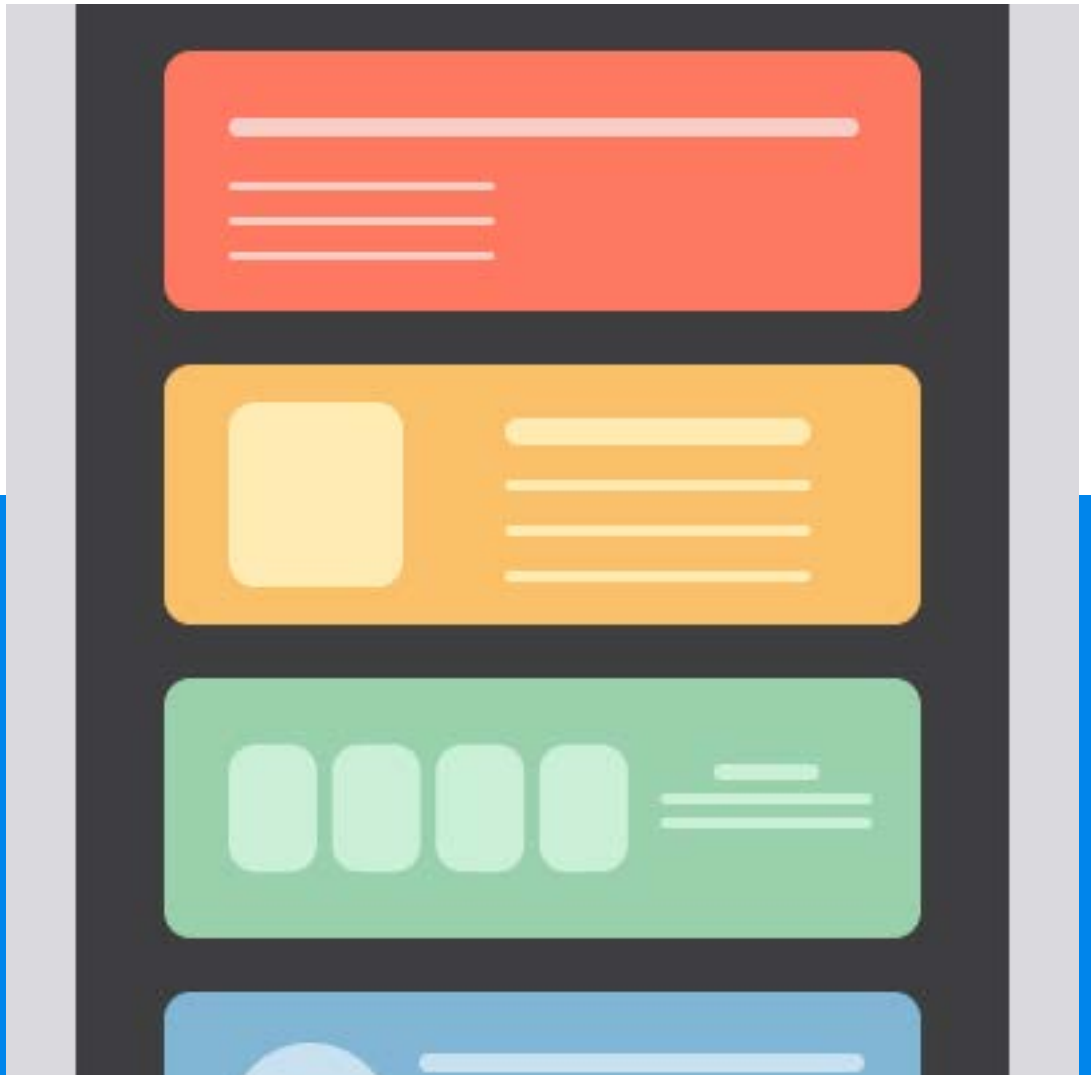

Video review

Maximise your reach with a high-quality casino review created by Game Lounge's video professionals. This eye-catching video can be featured on our homepage and/or in your casino review.

Newsletter

Update and inform subscribers about your most exciting news with an e-newsletter delivered by Game Lounge.
